Step 2 :- Now go to zoho creator login and signin using the username and password.

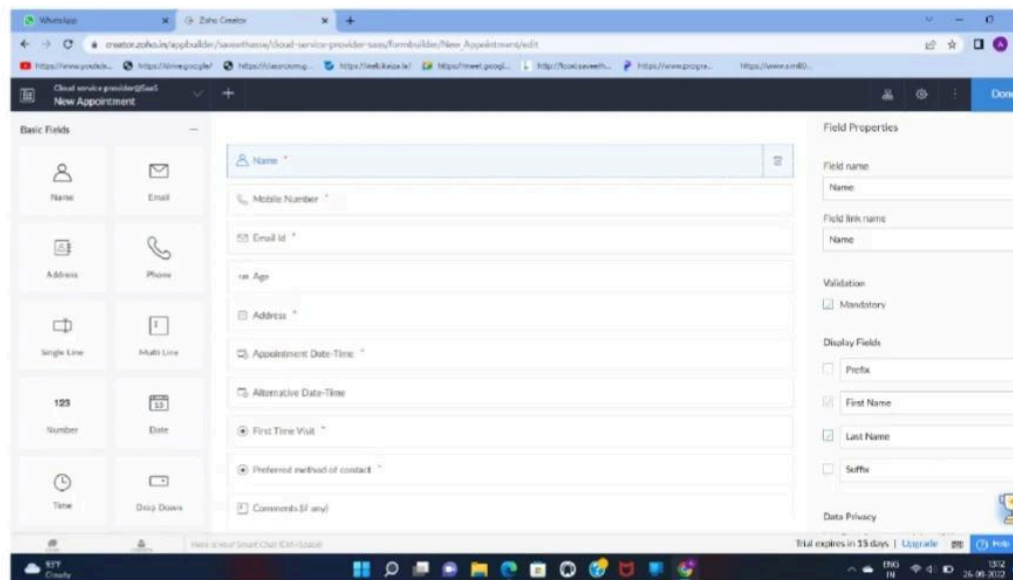

Step 3 :- Create a new application in the scratch.

Step 4 :- Select the template you needed.

Step 5 :- Drag and drop your needed blanks and create the application.

**Output :-**

New Oppointment booking

## Seat Booking :-

The screenshot displays the Zoho Creator interface for building a form titled "Pick Your Seat". The interface is divided into three main sections: a "Basic Fields" sidebar on the left, a central form canvas, and a "Field Properties" panel on the right.

**Basic Fields:** This sidebar contains various field types categorized into "Text", "Form", and "Table". The "Text" category includes Name, Email, Address, Phone, Single Line, Multi Line, Number, Date, Time, and Drop Down. The "Form" category includes checkboxes, radio buttons, and a "Your notes content will be shown here" placeholder. The "Table" category includes a "Table" icon.

**Form Canvas:** The central area shows the form being built. It includes fields for Name, Mobile Number, Email, Date, and a "Seats" field. There are also two "Your notes content will be shown here" placeholders and a "Drop Down" field.

**Field Properties:** This panel allows for configuring the selected field. It includes sections for "Field name", "Field link name", "Validation" (with a "Mandatory" checkbox), "Display Fields" (with checkboxes for "Prefix", "First Name", "Last Name", and "Suffix"), and "Data Privacy".

The interface also features a top navigation bar with a "Done" button and a bottom status bar showing the trial expiration date (20-09-2022) and a "Help" button.

## Result :-

Hence the application to provide Software as a Service (SaaS) is created successfully.
